Multidisciplinary Pain Center

## Medication Management

*New pain medication*

**Medications produce different reactions in different people. Safe effective medication management is our goal at the UWMC Multidisciplinary Pain Center. Contact our staff to tell us about your progress. This allows us to provide optimal care.**

**Please call the Clinic Refill Line 14 days before your next refill is due. This allows enough time to process your order: 206-598-2354.**

Your provider in the Pain Center has prescribed a new medication for you:

---

### Medication Information

- Obtain detailed information about your medications from your provider and/or pharmacist. Many pharmacies provide written material about medications.
- Ask what the medication is supposed to do, and how and when you are to take it.
- Ask about possible side effects and what to do if they occur.
- Keep your medications in a secure location.

### Contact Us

It is important for your healthcare team to know how you respond to this new medication. Please call one of the nurses in the Pain Center at 206-598-4282 in **7 to 10 days** to tell us how you are doing. Have your prescription bottle and a list of all your medications with you when you call.

If you think you are experiencing adverse effects to your new medication, call the Pain Center at 206-598-4282 during clinic hours, or the Chronic Pain doctor on call after hours at 206-598-6190.
