Getting Enough Protein and Calories

Nutrition to support your healing

Proper nutrition supports the healing process and helps your body maintain weight and fight infections. Do not limit or restrict your food intake until your healing is complete and you have recovered fully. Your body needs more nutrients than normal to heal well.

Your Nutrient Needs

Your nutrient needs are based on your ideal body weight.

- Your ideal body weight is: ______ kilograms (______ pounds).
- Based on this weight, you need: ______ grams of protein each day. This is ______ servings of protein.
- Your calorie needs are: ________ calories each day.

Protein Sources

This is a list of high-quality protein foods. The amount given is equal to 1 protein serving, or 7 grams of protein.

- 1 ounce of any cooked fish, poultry, or lean meat
- 1 ounce of hard cheese, such as Swiss or cheddar
- 1 egg or ¼ cup liquid egg substitute
- 1 cup milk (skim, 1%, 2%, or whole)
- ¼ cup dry powdered milk
- 1 cup yogurt (low-fat or nonfat)
- ¼ cup canned tuna or salmon
- 2 tablespoons peanut butter
- 1 cup pudding
- ¼ cup custard
One protein serving equals about 7 grams of protein.

- ¼ cup firm tofu
- ¾ cup ice milk
- 6 medium cooked oysters
- 2 ounces of shrimp, clams, lobster, scallops, or crab
- ½ cup cooked peas or beans
- 1 ounce nuts
- ¼ cup cottage cheese

**Boosting Protein**

Here are some tips for adding protein to your diet:

- Add 1 cup skim milk powder to a quart of whole milk (see recipe for Milk Mixture on page 5). Blend and chill. Use this Milk Mixture for cooking as well as drinking.
- Use milk, Milk Mixture, evaporated milk, or cream instead of water for cooking hot cereal. Also use these liquids instead of water to make instant cocoa, canned soups, custards, and pudding.
- Add extra pureed or chopped meat or tofu to scrambled eggs, omelets, or soups. For example, add chicken to cream of chicken soup, ham to split pea soup, or beef to tomato soup.
- Add chopped, hard-cooked eggs to sauces, soups, casseroles, and to chicken or tuna salads. Blend egg substitute into fruit juice, eggnog, or milkshakes. Eat desserts, such as custard, that are made with eggs.
- Spread peanut butter on toast, crackers, or raw fruit or vegetables. Try it on apple slices, bananas, and celery.
- A snack of salted or unsalted nuts or roasted soybeans will add extra protein as well as calories to your diet.
- Breakfast bars, granola bars, and yogurt make good between-meal snacks.
- Try supplements or special drinks (see pages 3, 4, 5, and 6).
- Add grated cheese to vegetables, sauces, soups, and casseroles. Melt a slice of cheese on an English muffin. Cottage cheese and fruit or cheese and crackers are good between-meal snacks.
Boosting Calories

These tips will help you add calories to your diet:

- Eat smaller meals more often, or divide meals in half. For example, have an egg and toast for breakfast and then have some fruit and cereal for a midmorning snack.
- Add butter or margarine to hot cereal, eggs, cooked vegetables, mashed potatoes, pasta, rice, noodles, crackers, and soups.
- Use gravies and sauces on meats and vegetables. A variety of sauce mixes are available in the grocery store.
- Use sour cream to top fruits, meats, cream soups, and baked potatoes. You can also add it to sauces or scrambled eggs and omelets.
- Use mayonnaise or salad dressing on salads, hard-cooked eggs and sandwiches. Avoid reduced-fat or fat-free products.
- Pour cream or evaporated milk over cereals, puddings, Jell-O, and fruit. Make puddings and custard with cream or evaporated milk instead of milk.
- Spread cream cheese and jelly or honey on crackers or English muffins. Sprinkle cinnamon and sugar on buttered toast.
- Eat dried fruits as snacks or add them to baked goods such as muffins or bread.
- Use whipped cream or ice cream on top of pies, Jell-O, pudding, fruit, or cocoa.
- Add avocados to salads. Eat guacamole and chips as a snack.
- Make large casseroles and freeze extra servings for quick snacks later.
- Keep a cooler or a thermos filled with a favorite shake or soup by the side of your bed or chair.

High-Protein, High-Calorie Supplements

If you find that you cannot eat enough solid food to boost your calories, try adding a liquid protein supplement to your diet. You can buy these supplements at most drugstores and grocery stores. Your pharmacist can order supplements that are not generally stocked.

Most supplements come in a variety of flavors and do not contain lactose. You can add syrups, fruit, instant coffee, or other flavorings to unflavored supplements.
Here are some supplements you may want to try:

*These supplements can also be used in cooking in place of milk.
Special Drinks

Prepare these drinks at home to supplement your diet as needed. Some flavorings are suggested, but please change them to match your own taste preferences.

**Milk Mixture**

*Makes four 8-oz. portions*

*Per portion:*

- 265 calories
- 18 grams protein

*Combine:*

- 1 quart regular whole milk
- 1 cup powdered milk

*Chill well. Use in place of regular milk for cooking or in special drinks.*

**Breakfast in a Glass**

*10 oz. per portion*

*Per portion:*

*With whole milk:*

- 210 calories
- 10 grams protein (1½ protein servings)

*With Milk Mixture:*

- 270 calories
- 15 grams protein (2 protein servings)

**Egg Nog**

*10 oz. per portion*

*Per portion:*

*With whole milk:*

- 210 calories
- 14 grams protein (2 protein servings)

*With Milk Mixture:*

- 320 calories
- 25 grams protein (3½ protein servings)

**High-Protein Shake**

*12 oz. per portion*

*Per portion:*

- 340 calories
- 10 grams protein (1½ protein servings)

**Basic Banana Smoothie**

*1 portion*

*Per portion:*

- 300 calories
- 12 grams protein (2 protein servings)
Sherbet Drink
10 oz. per portion

Blend well:
¼ cup orange juice
½ cup orange sherbet

Add:
4 ounces soda pop (orange, lemon-lime, or cream soda)

Per portion:
215 calories
1 gram protein (0 protein servings)

Peanut Butter Smoothie
1 portion

Blend until smooth:
1 cup 2% low-fat milk
2 tablespoons peanut butter
1 frozen banana

Per portion:
415 calories
17 grams protein (2½ protein servings)

Crunchy Orange Smoothie
Makes 1 portion

Blend until smooth:
1 cup 2% low-fat yogurt
2 tablespoons frozen orange juice concentrate
½ cup granola

Per portion:
450 calories
18 grams protein (3 protein servings)

Yogurt Shake
8 oz. per portion

Blend until smooth:
½ cup whole milk or Milk Mixture
¼ cup fruit yogurt
¼ cup soft fresh or canned fruit

Per portion:
With whole milk:
255 calories
8 grams protein (1 protein serving)

With Milk Mixture:
310 calories
13 grams protein (2 protein servings)
