Lower Body Exercises While Standing

7 exercises with step-by-step instructions

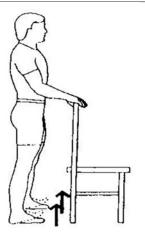

Do these exercises while you are standing to help strengthen your lower body.

For each exercise: Start with 1 set of 10 repetitions (reps), 3 times a day. As you get stronger, work up to 2 sets of 15 reps 3 times a day.

Special note: If you have had recent surgery, check with your doctor or physical therapist before starting these exercises.

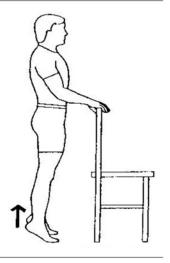

Toe Raise

- 1. Stand with both feet flat on the floor, shoulder width apart.
- 2. Hold onto a chair to help you balance.
- 3. Keep your heels on the floor and lift your toes toward the ceiling.
- 4. Lower your toes to the floor.

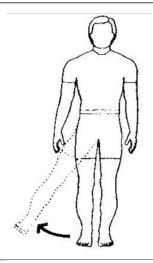

Heel Raise

- 1. Stand with both feet flat on the floor, shoulder width apart.
- 2. Hold onto a chair to help you balance.
- 3. Raise up on your toes, as far as you can go.
- 4. Lower your feet to the floor.

Hip Abduction

- 1. Stand. Hold onto a sturdy table or chair, or a wall to help you balance.
- 2. Bring 1 leg out to the side. Keep your knee straight and your toes pointing forward.
- 3. When you are done with your reps, repeat with the other leg.

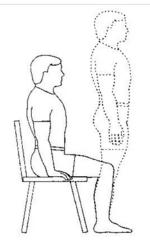

Hip Flexion

- 1. Stand. Hold onto a sturdy table or chair, or a wall to help you balance.
- 2. Lift 1 leg up, bending your knee.
- 3. Lower your leg.
- 4. When you are done with your reps, repeat with the other leg.

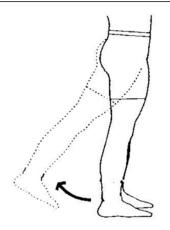

Sit to Stand

- 1. Sit on a chair. Move your hips forward toward the front of the seat.
- 2. Lean forward and stand up, using your hands as little as possible. Balance yourself by putting equal weight over each foot.
- 3. Sit down slowly and gently.

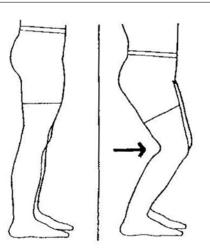

Hip Extension

- 1. Stand. Hold onto a sturdy table or chair, or a wall to help you balance.
- 2. Extend 1 leg back, keeping your knee straight.
- 3. Return to the starting position.
- 4. When you are done with your reps, repeat with the other leg.

Partial Squats

- 1. Stand on both legs.
- 2. Use a wall or a sturdy table or chair to help you balance.
- 3. Bend your knees to a 45-degree angle.
- 4. Return to the starting position.

Questions?

Your questions are important. Call your doctor or health care provider if you have questions or concerns.

Weekdays from 8 a.m. to 4:30 p.m., call Physical Therapy at 206-598-4830.

On weekends and holidays, call 206-598-6190 and ask for the weekend Physical Therapist to be paged.
