Follow-up Appointment

Your 3-month **follow-up appointment** is with Dr. ______ on _____, at ______.

- Please check in for this appointment at Radiology on the 2nd floor of the Roosevelt Clinic.
- At your follow-up visit, you will have an X-ray test called a
 hysterosalpingogram (HSG). This test checks the placement of your
 Essure insert.

Important Information About Birth Control

Until your doctor confirms the placement of your Essure at your 3-month follow-up appointment, it is **not** effective birth control. You **must** use a back-up birth control method for 3 months after your Essure is placed.
